LEGENDARY by *Thomasville*

LEGENDARY

■ **Decorative Individuality** can be yours with the new Thomasville LEGENDARY collection. LEGENDARY is steeped with the aristocratic heritage of several Mediterranean countries. From Italy, for instance, comes inspiration for the broken pediment atop the china and the sculptured effect of beveled, architectural moldings around deeply recessed panels. From France comes inspiration for the fine carving and unusual floral motifs in the headboard and chairs. Spanish inspiration accounts for the baroque, custom hardware and the hand-crafted copper tops and panels on selected pieces.

■ **Prized pecan** solids and veneers are finished in Vintage Sherry, a rich, distressed fruitwood tone. White with Rust trim or Antique Yellow can be selected for certain dining and occasional pieces when your decorating calls for exciting accent color.

■ **Custom hardware** featuring uncommonly fine detailing provides baroque accents. The antique finish and impressive weight harmonize well with LEGENDARY'S bold lines.

■ **Functional, as well as beautiful,** LEGENDARY has several modern features essential to graceful contemporary living. One drawer of each dresser and chest has a pin tray and shirt divider. For easy glide, drawers feature steel guides with ball-bearings. All dressers and chests have casters. Interiors are dustproof. Tables are equipped with metal slides and 20-inch filler leaves. All dining room cases, except the -240 huntboard and -510 server, have leveling glides. The 3721-510 server features casters, a black-plastic service area under the flip top and a tray lined and partitioned for silver. A lined and partitioned tray or drawer also comes with the -110, -111, and -120 buffets; the -220, and -230 sideboards; and the -410 china. The closed decks, china, and bookcase have interior lighting.

FINISH INDEX

All Legendary pieces are available in the Vintage Sherry finish; 3711 - bedroom, 3721 - dining room, 3731 - living room. The following pieces also are available in Antique White with Rust trim or Antique Yellow.

Thomasville®

Printed in U.S.A.

Thomasville furniture is the result of an endless tradition of careful research, authentic designs, master craftsmanship, superb metalwork, exquisite veneers, and rich finishes. The LEGENDARY collection is no exception. The design stems from extensive historical investigations. Every wood detail, from octagonal turnings to beveled, architectural moldings, is meticulously hand carved on a master form, then reproduced precisely in the finished piece. At Thomasville, master carvings take days to craft and hours to duplicate, even on modern, high-speed equipment. Similar devotion accounts for the distinctive metalwork and extraordinary veneer quality. You can always take pride in the parquetry, bookmatching, distressing, fine grain configurations, and deep-look of finishes of Thomasville furniture.

But Thomasville quality is more than meets the eye. In furniture by Thomasville you'll find special features, like interior lighting, steel drawer guides, adjustable leveling glides, and drawer dividers. None are necessary, but they do make contemporary living a little easier. Beauty, function, and quality are combined to give you "that Thomasville look."
